

# NEWS RELEASE

*C DYER DEVELOPMENT GROUP*

Sept 13, 2016  
Immediate Release  
VAX-D Owners

Hello,

My Name is Chasen W. Dyer, and for the past 12 years I have been an employee of VAX-D Medical Technologies. Chances are if you have dealt with VAX-D in the last decade, in some way, shape or form I have had a hand in it. As most of you may know on March 3<sup>rd</sup>, 2015 Allan E. Dyer (Owner and President) sold the company to an investment group out of Shanghai, China, in hopes that they would take his company to a level he was unable to attain.

As it turns out, quite the opposite has occurred and as of today this new ownership group, for whatever the reason may be, has decided to no longer fund any operations. Over the past year, against our best efforts to convince the new owners to follow our business model that was laid out step by step, by Lawrence A. Dyer, they decided to only have minimal operations in North America in order to enter the market in China. In turn, this has caused an inevitable decline in the ability sustain any sales, service, and faith that we had instilled in our clients over our 20+ years of service.

Now, I have severed all ties with the company and am no longer under any contractual obligations and am free to contact and work with any previous and/or new clients of VAX-D. I am considering the possibility of forming a company to continue servicing the needs of our clients who allowed us to remain atop this segment for so long. The purpose of this E-mail is to reach out to any existing clients of VAX-D to judge if there is enough interest in Sales, Service and Accessories to justify moving forward with this.

Please send your comments, questions and contact information to [CDyer@CDyerDevelopmentGroup.com](mailto:CDyer@CDyerDevelopmentGroup.com) I will do my best to respond to any and all emails as quickly as possible. Also if you know anyone else who has similar needs, do not hesitate to pass this on.

Sincerely,

Chasen W. Dyer
